**CIRCULAR**

The ICMR-Department of Health Research (DHR) in association with the National Medical Commission (NMC), has developed **Medical Shodhganga**, a thesis topics repository of Indian Medical Postgraduate theses to help prospective postgraduates in case of difficulties encountered while selecting thesis topics.

The thesis topics included in the repository were solicited from the selected faculties & more than 1400 thesis topics in 24 specialties have been received and refined by a team of subject experts and ICMR scientists. The repository may be accessed at the following web address:  
**<https://medshodh.icmr.org.in/>**
