

NATIONAL MEDICAL COMMISSION

Under Graduate Medical Education Board

Public Notice

Dated: 26.04.2021

Following draft amendment is being made to sl.no.3 under heading Emergency Department in Para 10.2 of schedule III of Minimum requirements for Annual MBBS Admissions Regulation, 2020 notified wide no. NMC/MCI 35 (1)98-med. (ii) 123627 dated 28th Oct 2020.

“ Central Oxygen and Suction points shall include provision of piped oxygen supply to all beds in the hospital having patients in critical condition/requiring oxygen from liquid oxygen tank installed at appropriate place in the hospital complex.

In addition, all Medical College hospitals are also required to have a dedicated PSA technology produced oxygen supply in addition to supply from liquid oxygen tank, which is to be installed and made operational within six months, notwithstanding the requirement of the Department of Emergency Medicine mandated from 2022 onwards.”
