

CIRCULAR

No. MCI-Academics/2019/168360

Date:02/12/2019

To,

1. Conveners of MCI Regional and Nodal Centres
2. Dean/Principal of all Medical Colleges.

Subject:- Implementation of Competency Based Curriculum- Part II of the Regulations on Graduate Medical Education, 1997- Reg.

This is to inform all concerned that on 06th November 2019, the Board of Governors in Supersession of Medical Council of India had with the prior approval of Central Government notified in Gazette of India, Part II of the Regulations on Graduate Medical Education, 1997. These Regulations constitute the governing regulations with respect to batches admitted in MBBS course from academic year 2019-20 onwards. A copy of these regulations is available on MCI website under the link E-Gazette. These Regulations give effect to the competency based learning including designing and implementing the new competency based Medical Education curriculum that focuses on the desired and observable ability in real life situations in order to effectively fulfil the roles of Indian Medical Graduate as (a) Leader and member of the health care team and system; (b) Communicator with patients, families, colleagues and community; (c) Life-long learner committed to continuous improvement of skills and knowledge; and (d) professional who is committed to excellence, is ethical, responsive and accountable to patients, community and the profession. The “COMPETENCY BASED UNDERGRADUATE CURRICULUM FOR THE INDIAN MEDICAL GRADUATE” is also available on the MCI website.

In order to roll out the curriculum successfully the MCI and its Nodal and Regional centres had conducted “Curriculum Implementation Support

Program” (CISP) workshops for sensitizing faculty of Medical Colleges about the competency based UG curriculum. It has come to the notice of this Council that some of the Medical Colleges have not conducted the Curriculum Implementation Support Program (CISP).

Those Medical Colleges that have till date not conducted the CISP program, are hereby directed to coordinate with the Incharge (Convener) of their respective Nodal and Regional Centres and get the program conducted expeditiously for their Medical College Faculty. The observer from Nodal and Regional Centre who will be designated to supervise the conduct of the CISP Program in these Medical Colleges, where CISP is proposed to be held now, will be paid TA/DA and honorarium by the College concerned and an Undertaking from the Dean/Principal of the concerned College has to be given in this regard to the Nodal and Regional Centre for getting the CISP conducted/supervised.

Such workshops are in the interest of the MBBS students and Faculty of the Medical Colleges. The Council shall in due course seek report of participation in CISP from all Medical Colleges.
